Introduction

The Deanship of Development and Quality at King Khalid University organized a training workshop entitled “International Accreditation (AHPGS): Standards and Implementation Mechanisms” as part of its ongoing efforts to enhance the quality of higher education and strengthen the readiness of academic programs for international accreditation. The workshop aimed to promote a culture of quality and support the development of academic and institutional practices, contributing to improved learning outcomes.

Workshop Objectives

The workshop aimed to introduce participants to international accreditation by the Accreditation Agency in Health and Social Sciences (AHPGS) and highlight its importance in academic program development. It also addressed the standards and requirements for obtaining accreditation, and explored mechanisms for implementing these standards to improve the quality of academic programs and enhance learning outcomes.

Key Topics Covered

- Introduction to AHPGS international accreditation and its objectives.
- Overview of accreditation standards and requirements.
- Procedures and mechanisms for applying for international accreditation.
- The role of quality assurance in academic program development.

Conclusion and Development Recommendations

The workshop highlighted the importance of continuous training and professional development to meet the needs of relevant stakeholders. It is recommended to document participants' practical applications, monitor the impact of the training, and utilize feedback to improve future programs. Additionally, specialized workshops can be organized to support academic programs in preparing accreditation documentation and implementing quality standards for better practice.
